Progress Check HN: Quadratics (C1)   Name:_____

1) Use factoring to solve. Show your work.
$$-4w^2 + 5w = -6$$

2) Complete the square to write this quadratic in vertex form. Show your work.
$$g(x) = 2x^2 - 12x + 22$$

Progress Check CP: Quadratics (C1)   Name:_____

1) Use factoring to solve. Show your work.
$$4w^2 - 5w = 6$$

2) Complete the square to write this quadratic in vertex form. Show your work.
$$g(x) = x^2 - 6x + 11$$
